

Lawson, June 23.

Special Notices.

PUBLIC HEALTH. THE PRESS.

Several persons have been arrested on suspicion of being engaged in the Bowdoinham plot of bank robbery, but most of them discharged. Hundreds of detectives and officers are covering the country in all directions. One-half cents less is left in the Bank at the present time.

Lawson, June 23.

The train captured near Camargo, on the road from Boston to the Berkshires, was valued at three millions.

New York, June 25.

It is reported that the steamer which sailed from Vera Cruz on the 6th, took \$3,000,000 from Maximilian in Napoleon. It is stated that the French Col. Craté was arrested near Cornell, U. S., on Sunday on the 21st. He was held in custody by a U. S. Judge, but was released on the 23d, and has since been released.

The steamer "Caledonian" was captured and brought to New York on Saturday, June 24, and the crew were arrested.

The cholera patients of Quarantine are increasing. There has been no death since Sunday. No cases were reported in the city on Sunday.

See Statute at 52.

New York, June 26.

The Herald's W. Langdon, despatch says that the steamer "Caledonian" has been arrested on suspicion of having carried Maximilian to the United States.

It is said that Maximilian will offer himself to the President of the Mexican Republic. He has offered to remain in the United States, and to help to establish a republic in Central America.

The steamer "Caledonian" was recently sold to the British.

The cholera patients of Quarantine are increasing. There has been no death since Sunday. No cases were reported in the city on Sunday.

See Statute at 52.

New York, June 27.

The steamer "Caledonian" was recently sold to the British.

The cholera patients of Quarantine are increasing. There has been no death since Sunday. No cases were reported in the city on Sunday.

Several cases have occurred where they have been unable to find a doctor to stay for a few days for their safety.

See Statute at 52.

New York, June 28.

A party of armed men, probably the members of shadowy plots, who had been engaged in the Boston bank robbery, and who had been sent to Boston to assassinate Lincoln, were arrested on Saturday. They were captured in Boston.

A Washington newspaper reports that the steamer "Caledonian" has been captured by the British.

BACHELOR'S HAIRDYE.

THE BEST IN THE WORLD. Thinnest, rich, instantaneous, the only perfect dye.

By the medical faculty. A physician who advocates a valuable remedy to fit people's private practice was drawn to the oil of camphor from his professional brethren, should he make its means known to millions through the business columns of a newspaper press. This may be dignified, — at it is benevolent, honest, or just. Whoever is fortunate enough to discover or invent anything that will recruit, renew, and invigorate human life, is bound to be rich, though every claim to compensation will be denied, to the general public. For many years the merits of HOSTETTER'S CELLOPHANE STOMACH BITTERS have been proclaimed to the world, and mankind as have been restored to health, or saved from fatal maladies in consequence. All new facts have been duly published in the papers in relation to the operation of this most useful and potent of stomach and alteratives. These have been published in every language in the world, and the proprietors have done much good to the public. The physicians have been greatly assisted by the efforts of Dr. H. D. Barnes, the best medical editor of the United States.
